

## VW ID. Buzz\* (Passenger variant)

-> BusBox-4 with BROWN Covers

The rear seat bench can be used for transporting people.  
The bed is placed on the folded down seats for the purpose of hard foam block.  
Any flexboard to raise the boot floor must be removed.

\*The cargo version of the ID. Buzz with short wheelbase, is unfortunately not suitable for the QUQUQ box, the loading area is too short.
