

VW, T7* with 90° folding seats.

-> BusBox-3

Any seats in the 3rd row must be removed. The 2nd row of seats can remain in the vehicle as long as they can be folded through 90°. The bed can either be placed on the folded seats using the hard foam block provided, or the row of seats can be pushed back far enough for the bed to rest on the folding legs. An additional platform is NOT required.

*The BB-3 does also fit in every vehicle, that is compatible with the BB-2 + the 110 Pedestal.
